

Green Swan 2023, Getting real with tech and the transition 31 May-1 June 2023

The **Bank for International Settlements**, the **Central Bank of Chile**, the **Network for Greening the Financial System** and the **South African Reserve Bank** proudly announce the third edition of the Green Swan Conference “Getting real with tech and the transition” on **31 May-1 June 2023**.

Distinguished speakers from the public and private sectors will discuss climate transition in the real economy, with a particular focus on the role of technology, the macroeconomic and policy implications of the transition, and the stakes for central banks.

The conference will be held virtually and publicly livestreamed.

The full programme and live broadcast are available at [Green Swan 2023: Climate transition in the real economy: what should central banks know about it? \(bis.org\)](https://www.bis.org/green-swans-2023)
